

Álvaro Soria

Experience

April 2024 – September 2024

Junior Web Developer • Hamilo SRL

- Collaboration in the development and design of a single-page application (SPA) using Vue.js and Bootstrap 5.
- Integration of the SPA with a backend developed in Laravel and a MySQL database, guaranteeing fluid communication through RESTful API.
- We built a custom CRM to automate both academic management and talent recruitment processes, using the Laravel Sanctum package for session authentication and the Spatie/Laravel-Permission library for permissions and role management.

2020 – 2023

Chief Operating Officer • Soriavalos distribuidores

- Co-directed a wholesale distribution venture of fast-moving consumer goods in Oruro and surrounding areas, managing key relationships with suppliers such as Unilever Andina SA, Milcar SRL, and Inocom SRL.
- Provided IT consulting and support, modernizing business management to improve operational control and tracking.
- Implemented operational strategies that increased efficiency and productivity, ensuring a smooth supply chain and improving customer satisfaction.
- Oversaw the selection and integration of Enterprise management software, optimizing processes and improving data-driven decision-making.

2017 – 2019

General Accountant • Micromarket MiMeFa

- Responsible for the registration and administration of assets in both headquarters and the branch, ensuring the accuracy and integrity of financial and tax data.
- Selected and implemented software solutions for the management and control of realizable assets, which improved accuracy and operational efficiency. Additionally, designed and optimized key processes, driving greater efficiency across both Micromarket locations.
- Collaborated in the receipt of goods, inventory control, and data maintenance in the administrative system, also supporting purchasing and sales processes.

- High School Diploma in Human Sciences.

About me

I am a passionate Web Developer with experience in technologies such as Vue.js, Laravel, Git, MySQL and Bootstrap. Since childhood, I have always been fascinated by mathematics and programming, and currently, I am fully committed to a career in software development.

I strive to maintain a balanced lifestyle, prioritizing physical health through regular gym workouts, which supports my discipline and improves my productivity at work. I value both personal and professional growth, and I actively focus on both on a regular basis.

I have strong teamwork abilities, problem-solving skills, and the ability to adapt quickly to new environments. Additionally, my experience in administrative and commercial roles provides me with a more holistic and practical perspective, allowing me to propose comprehensive solutions aligned with clients needs.

I am interested in roles within companies offering digital products or services, where I can apply my technical skills while continuing to develop them. I am particularly excited to work in companies that integrate AI into their services.

In the short term, my goal is to gain experience in the tech industry. I aspire to become an exceptional programmer who creates extraordinary digital solutions.

Thank you for your time and interest. I'm ready to face new challenges. Please ¡Do not vacillate to contact me!
